

INSPIRING THE NEXT GENERATION OF ENGINEERS

Volunteer Opportunities for Summer 2019!

Help create a summer to remember for kids ages 5.5 to 13 years old!

Our amazing volunteers assist our Camp Leaders in delivering fun hands-on learning activities at week long camps where we build catapults, launch rockets, solve engineering challenges in Minecraft, program LEGO robots to explore the moon, and more! Our camps include lots of outdoor games and activities, and trips to local parks, pools and water parks.

Requirements:

- Participate in a training and orientation session in June
- A clean criminal record check
- Minimum 2 weeks of volunteering

Camp weeks: · July 2—August 30

Ideal for individuals who...

- ✓ Want to work with kids between the ages of 5.5 and 13 in a fun, engaging setting
- ✓ Are out-going, friendly, and self-motivated
- ✓ Likes being in large groups
- ✓ Have an interest in science, engineering, math, and/or technology
- ✓ Enjoy hands-on building or working with technology (Minecraft/ LEGO Robotics/ 3D Design)
